

COMMUNITY MARKETPLACE

Development Cost & Financial Projection Report

Irish Market Analysis — 2026

Report Date: 02 July 2026

Prepared from comprehensive codebase audit

Executive Summary

This report estimates the replacement development cost of the Community Marketplace platform if built from scratch in the Irish market (2026 rates), based on a full audit of the codebase: ~239,000 lines of TypeScript, 67 API controllers, 134+ services, 122+ web routes, ~50 database models, and 20 domain modules.

Estimated development effort: 12,380–18,590 hours (15,485 hours midpoint), equivalent to a team of 5–6 developers over 14–20 months.

Development cost scenarios:

Scenario	Rate	Low	Mid	High
Lean Hybrid Team (remote + Irish lead)	€58/hr	€718,040	€898,130	€1,078,220
Irish SME Agency / Blended Team	€85/hr	€1,052,300	€1,316,225	€1,580,150
Premium Dublin Agency	€125/hr	€1,547,500	€1,935,625	€2,323,750

The platform significantly exceeds a typical MVP — it includes enterprise-grade RBAC, Stripe Connect payments, real-time chat, fraud detection, monetization SKUs, PDF financial reporting, seller KYC, and a unified admin/super-admin panel with 46+ pages.

1. Methodology & Irish Market Benchmarks

1.1 Rate Sources (2026)

Role / Engagement	Rate Range	Source
Junior freelance developer	€30–€50/hr	Abbacus Technologies, IT Search 2026

UX/UI designer	€55–€85/hr	SalarySavvy Dublin 2026
DevOps engineer	€80–€120/hr	SalarySavvy Dublin 2026

1.2 Estimation Approach

Hours were estimated per feature by auditing actual controllers, services, Prisma models, and frontend components in the monorepo. Each sub-feature reflects implemented code — not planned or placeholder functionality. A 25% contingency is recommended for scope creep, regulatory changes, and integration surprises.

1.3 Codebase Metrics

Metric	Value
Total TypeScript/TSX lines	~239,201
API controllers	67
Domain services	134+
Frontend routes	122+
Prisma database models	~50
API domain modules	20
Shared Zod schemas	19
Event listeners	14
Meilisearch indexes	4
Documentation files	89
Default platform transaction fee	10%
Verified seller fee	8%
Monetization SKUs configured	10

Period	Operating Cost
Daily	€172.60
Weekly	€1,211.54
Monthly	€5,250.00
Quarterly	€15,750.00
Annual	€63,000

5. Revenue Model

Revenue streams implemented in the platform:

Stream	Price	Description
Platform transaction fee	10% default (8% verified sellers)	On in-platform card payments via Stripe Connect
Listing boost (7 days)	€1.99	Increased visibility for 7 days
Listing boost (30 days)	€4.99	Increased visibility for 30 days
Featured homepage slot	€2.99/day	8 slots/day maximum
Featured category slot	€1.99/day	4 slots/day per category
Fast-track verification	€2.99	Priority KYC review
Store slot 2	€4.99	Additional storefront
Store slot 3	€4.99	Third storefront
Store bundle (3 slots)	€7.99	Discounted multi-slot
Buyer account statement	€0.99	Monthly PDF/CSV/XLSX unlock
Cashback programme	Cost centre	1.5% cashback — retention tool, not revenue
Display advertising (future)	CPM €5–€15	Not yet implemented — Phase 4+

5.1 Key Assumptions

Assumption	Value	Basis
Average transaction value	€75	Irish classifieds market average
In-platform payment adoption	25% → 55%	Grows as trust builds (Years 1–10)
Platform fee on GMV	10%	Configurable per seller
Seller monetization conversion	3–8% of active sellers	Boosts, featured, store slots
Irish classifieds market	DoneDeal: 6.4M monthly visitors	Distilled Ltd 2024 results
Competitor revenue benchmark	€47M (Distilled 2024)	DoneDeal + Daft + Adverts combined
Target market share by Year 10	0.5–1.5% of addressable	Conservative niche/community positioning

6. Profit & Loss Projection (2026–2035)

Conservative scenario assuming gradual user acquisition competing in the Irish classifieds market. Development cost treated as sunk capital (not amortised into P&L). Stripe costs shown as net platform cost (fees minus pass-through).

Year	MAU	GMV	Revenue	OpEx	Net P/L	Cumulative P/L
2026	2,500	€120,000	€5,400	€67,300	€-61,900	€-61,900

9. Development Cost — Time-Based Breakdowns

Assuming 18-month build timeline at midpoint cost of €1,316,225:

Metric	Value
Total project cost	€1,316,225
Monthly burn (dev only)	€73,123.61
Weekly burn (dev only)	€16,887.67
Daily burn (dev only, 5-day week)	€3,323.80
Hourly burn (mid hours)	€85.00
Team size equivalent	5–6 FTE developers
Calendar timeline	14–20 months

10. Risk Factors & Sensitivities

Risk	Severity	Mitigation
Market dominance of DoneDeal/Adverts.ie	High	Differentiate on community, zero-fee listings, trust
Slow in-platform payment adoption	High	Buyer protection incentives, cashback programme
Regulatory (PSD2, consumer rights)	Medium	Legal review, Stripe handles most compliance
Development cost overrun	Medium	25% contingency recommended; phased delivery
Key person dependency	Medium	Document architecture; hire second senior dev early
Cybersecurity incident	Medium	Cyber insurance, penetration testing (€5–15K)
Currency/tax changes post-Brexit	Low	EUR-only operations; Irish Ltd structure

Abbreviation	Full meaning & context in this report
Q1–Q4	Calendar quarters — Q1 = Jan–Mar, Q2 = Apr–Jun, Q3 = Jul–Sep, Q4 = Oct–Dec.
Mid	Midpoint estimate — average of low and high range in hour/cost tables.
Low / High	Optimistic vs pessimistic bounds on hours or cost estimates.

Appendix D: Disclaimer

This report provides indicative estimates based on codebase analysis and publicly available Irish market rate data (2026). Actual costs depend on team composition, delivery model, scope changes, and market conditions. P&L projections are conservative models — not financial advice. Revenue assumptions should be validated with market research and pilot launch data. Development hours reflect replacement cost of existing implemented features, not ongoing maintenance (estimated at 15–20% of build cost annually).
